

Andrejs Galenieks, CNU-A

Urban Designer, Raimi + Associates

Andrejs Galenieks has a strong background in traditional and sustainable design principles, having contributed to a number of small and large-scale design projects throughout the country as well as overseas. He has taken a part in numerous public charrettes and workshops, working on projects ranging from conceptual design of transit-oriented developments to form-based codes, as well as general and specific plans at all scales. Collaboration with professionals across multiple disciplines has been typical in his experience. Andrejs has also participated and contributed to award-winning projects such as The North End Plan for Michigan City, (IN), among many other projects, including the General Plan for Tehachapi (CA), the Lancaster Boulevard Streetscape Master Plan (CA), and Pasadena City Guidelines (CA).
